## Profile

---

Computer Science and Engineering student with strong skills in programming, web development, and emerging technologies. Experienced in building real-time applications and responsive websites. Passionate about applying academic knowledge to practical projects and delivering measurable results in dynamic environments.

## Education

---

|   |                        |
|---|------------------------|
| <b>Nagarjuna College of Engineering and Technology</b><br>Bengaluru, Karnataka.<br>Bachelor of Engineering in Computer Science - CGPA: 8.63 | Aug 2022 – Present     |
| <b>Varasiddhi Vinayaka PU College</b><br>Keradi, Kundapura TQ, Udupi DT.<br>Pre-University Education (PCMB) - Percentage: 79.16%            | June 2020 – April 2022 |
| <b>Kittur Rani Chennamma Residential School</b><br>Channagiri, Davanagere DT.<br>High School - Percentage: 89.6%                            | June/July 2020         |

## Skills

---

**Programming Languages:** Java.  
**Database Utilisation:** MySql, MongoDB.  
**Web Development:** HTML, CSS, JavaScript.  
**Soft Skills:** Team Collaboration, Time Management, Adaptability, Communication.  
**Languages:** English, Kannada, Hindi.

## Projects

---

### License Plate Detection and Recognition Using YOLOv8 and Tesseract OCR

- Built a real-time license plate detection system with 94% recognition accuracy.
- Enhanced performance in low light, high speed, and partially obstructed conditions.

### ChitLink Messenger: A Socially Integrated Platform (Ongoing)

- Developing a messaging platform with end-to-end encryption and real-time chat features.
- Introduced user verification badges to improve authenticity and trust.

### Smart College Management and Automation System (ServiceNow Platform)

- Developed a centralized college automation system on ServiceNow to manage admissions, faculty, hostel, transport, and mess services digitally, minimizing paperwork.
- Created and integrated Service Catalogs, custom tables, forms, and automated workflows to streamline operations and improve accuracy and efficiency across departments.

## Certifications

---

- NPTEL - Programming in Java (Elite Certificate).
- Micro-Certification - Welcome to ServiceNow.
- Certified System Administrator - Servicenow
- Oracle Database Foundations.
- Full Stack Developer Bootcamp - Master Frontend to Backend
